Institut Universitaire de Technologie (IUT)

Professional Bachelor LP

TO GET THERE

This course is designed for:

- students with a Technical University Diploma, an Advanced Vocational Training Certificate or an equivalent diploma (two years of higher education)
- students who have completed two years of a Licence degree and wish to take a course with a professional focus that will open the door to the world of work after three years of higher education.
- professionals who wish to validate professional experience.

ACQUIRED SKILLS

Graduates become project managers who are able to:

- ensure overall coordination of all the company's resources involved in the project (human, financial, material, etc.);
- master the overall project management process by analysing financial indicators as part of a sustainable approach to actions and continuous improvement.

YOUR FUTURE CAREER

This professional Licence prepares students to enter the world of work at the end of their training.

Graduates have good inter-personal skills and can work in a range of departments (general management, marketing, communication, design office). Depending on the size of the company they work for, they may work as an assistant or project manager in marketing, communications, events, quality, sustainable development, change management, etc.

The professional Licence in Project Management trains students to be operational in any type of organisation or sector (private or public companies, associations, administrative bodies, etc.).

BENEFITS OF THE PROGRAM

General training with a focus on project management that covers a broad range of organisations and sectors; partnerships with a large network of companies; extensive individual support for students (methodology, finding an apprenticeship, pedagogical follow-up, etc.).
