University Diploma International Service Engineering International Service Engineering

Institut Francilien d'ingénierie des Services (IFIS)

University Diploma DU

TO GET THERE

This course is open to students with a first-year Master's who wish to take a year out. It is open to applicants from all backgrounds (information science, applied management science (management of innovation, management of information, intercultural management, etc.), strategy, general company policy, entrepreneurship, data, decision making).

ACQUIRED SKILLS

Students can choose subjects to reflect the skills connected with their professional project:

- * project management,
- * setting up an intelligence system, etc.

The main aim of this diploma is to allow students to:

- * master several languages (plurilingualism),
- * get to know others in all their cultural diversity

YOUR FUTURE CAREER

- Career opportunities: those targeted by the courses that the students take after the university diploma, with the additional ability to work in an international environment.

- Level of responsibility: executive.

- Sectors concerned: those targeted by the courses that the students take after the university diploma.

BENEFITS OF THE PROGRAM

This University Diploma is aimed at all students from the Ile-de-France Institute of Service Engineering who wish to gain international experience in the field of service engineering. In addition to the multicultural aspect, the richness of this course lies in the fact that students can choose from a range of disciplines in order to enrich their original training.
