UFR de Langues, Cultures et Sociétés (LCS)

Bachelor's degree L1 L2 L3

TO GET THERE

Target group: high school diploma holders. Expected skills: The high school diploma specialities required are Mathematics and Life and Earth Sciences or Digital and Computer Sciences. The Complementary Mathematics option is recommended.

ACQUIRED SKILLS

Acquisition of a sound scientific background in Computer Science and Health Sciences. Ability to apply a scientific approach. Presenting a project orally and in writing. In computer science: mastering the main types of representation of computer data, implementing an algorithmic solution in various programming languages, designing and maintaining a database and website. In Health Sciences: mastering the fundamental concepts needed to enter the second year of medical studies.

YOUR FUTURE CAREER

Admission (subject to selection) to the second year of medical studies (Medicine, Midwifery, Odontology, Pharmacy) at Université Paris-Est Créteil. Continuing on to a Licence in Computer Science, followed by a Master's degree in Computer Science.

BENEFITS OF THE PROGRAM

This programme offers access to medical courses while also enabling students to study for a Licence in Computer Science. During the Licence, students may apply twice for medical courses. The requirement for admission is to have passed the current undergraduate year, in particular the Health module. Candidates from the various Computer Science Health access option programmes are then selected on the basis of their average grade in the current undergraduate year and any oral exams. Health courses are taught by the University of Créteil and delivered online. Other courses take place on the Université Gustave Eiffel campus.
