Bachelor's degree L3

TO GET THERE

This programme is for second-year university level students with a good level of accounting and legal expertise, namely 120 ECTS credits in economics and management or management, other Licence degrees, BTS CG (higher technician certificate in accounting and management), BUT GEA-CGF (university technology diploma in corporate and administrative management - accounting and financial management). Students in their second year of the BUT GEA programme can therefore apply.

ACQUIRED SKILLS

The accounting, legal and finance courses are based on the Diploma in Accounting and Management programmes and enable students to make a general and financial diagnosis of a company, analyse the global management issues, identify the strategies likely to create value and measure their performance. It aims to further the acquisition of technical skills in the fields of accounting, control and audit, and to develop critical thinking management skills so that students are able to enter the labour market more quickly.

These theory courses are supplemented by a minimum 8-week work placement.

YOUR FUTURE CAREER

The training programme prepares students for careers in accountancy, management control, auditing, finance and more generally any career connected with strong numerical abilities. The programme enables students to continue their training with a Master's degree in management, in particular the Master's in Accounting, Control and Auditing.

BENEFITS OF THE PROGRAM

Delivered to a small group of students (maximum 30). This is a recognised training programme due to the high standard of its accounting, legal and financial courses and the profile of its engaged and diligent students. This training program is one of the best ways to access the IAE Master's degrees.
