Master's degree International economics Development Economics and International Project Management

UFR de Sciences Économiques et de Gestion (SEG)

Master's degree M2

TO GET THERE

The Master's programme is open to graduates of business schools, engineering schools, IEP or other M1 programmes who can demonstrate a sufficient level of knowledge in economics and management.

Selection is on the basis of an application, then an interview with the teaching team.

ACQUIRED SKILLS

The Master's degree aims to provide students with the necessary skills in project management and economic expertise. While the M1 programme provides fundamental knowledge of economics, mainly international and development economics, the M2 programme enables students to deepen their knowledge of economics and international project management techniques.

YOUR FUTURE CAREER

The Master's in International Economics leads to employment opportunities as an economic expert, consultant or project manager, in international organisations or national state agencies but also in NGOs which operate in developing countries, or multinational companies or consultancies. It also enables students to undertake a PhD thesis at the university (subject to having taken the research dissertation option in M2 and undertaken a research placement at Université Gustave Eiffel or UPEC).

BENEFITS OF THE PROGRAM

Training programme entirely in English, which involves both economics and management. "Professional" pathway: with a work placement followed by a dissertation. "Research" pathway: with a research dissertation with enhanced mentoring, enabling students to go on to do a thesis. Input from representatives from the social and professional fields participating in the training programme and working in international project management and the economic analysis of developing countries. Field mission enabling students to apply the skills they have acquired in project management. Cooperation agreement enabling students to follow a series of lectures organised by the World Bank
