Professional Bachelor LP

TO GET THERE

This course is only available as a validation of acquired experience programme for the 2021-2022 academic year.

ACQUIRED SKILLS

During the construction phase, the developer must produce all the construction drawings for all building trades, award construction contracts, define the works schedule, manage risk prevention plans and check and validate all documents and files.

They must have a good sense of organisation and teamwork and be able to negotiate with clients and sub-contractors, write documents, and negotiate prices. They must also be familiar with new construction techniques and be proficient in drawing and the use of sector-specific programs (design office).

YOUR FUTURE CAREER

90% of graduates enter the professional world immediately after graduating.

10% continue their studies for one or two years before entering the professional world.

BENEFITS OF THE PROGRAM

. Sustained involvement of the professional sector, particularly the Chambre Française d'Agencement . Wide variety of academic and professional contributors . Work-study format . Employment rate
