UFR de Sciences Humaines et Sociales (SHS)

Master's degree M1 M2

TO GET THERE

Extensive experience in the health sector in the broadest sense; Validation of Acquired Experience (VAE); Licence degree in philosophy; Licence degree or equivalent in the field of health.

ACQUIRED SKILLS

Sound knowledge of the philosophical tradition in the field of ethics; genuine autonomy in ethical reflection and decision-making, and even in teaching ethics

YOUR FUTURE CAREER

Access to the M2 Medical Humanities pathway and then to the PhD; in lifelong learning, students obviously keep their existing jobs, but can either enrich the content of these jobs (leading ethics courses, responsibility and/or participation in ethics forums, committees and commissions), or add to their portfolio to progress professionally (e.g. nurses to become managers, practising hospital doctors to become professors)

BENEFITS OF THE PROGRAM

The uniqueness of this course lies in the fact that it establishes strong links between the philosophical tradition and the most vivid realities of the world of healthcare in the broadest sense; its strength lies in the fact that it provides students with a great deal of support in preparing their dissertation, which is the highlight of their pathway.
