Master's degree Social and Solidarity Economics Health, Welfare and the Social Economy

Institut Francilien d'ingénierie des Services (IFIS)

Master's degree M1

TO GET THERE

This first-year Master's is open to students with 180 ECTS (Licence degree or equivalent).

This course is a work-study programme.

Three statutes are accepted: apprenticeship / lifelong learning with a professionalisation contract / initial training (work placement periods).

The selection process takes place in two stages: pre-selection on the basis of application, followed by an admission interview, after which a panel of judges decides whether or not to admit the pre-selected candidates.

ACQUIRED SKILLS

The skills in this first-year Master's are divided into three groups comprised of several subjects:

- fundamental and theoretical knowledge of the political, economic, social and legal context,
- auditing management tools, quality and project management,
- basic tools: computer science, statistics, English.

The skills targeted are in line with the management skills required of future directors.

Students can choose from two options: healthcare or welfare.

YOUR FUTURE CAREER

At the end of the first-year Master's, the course offers three different programmes in second year:

- Programme 1: Integration and Social and Solidarity Entrepreneurship
- Programme 2: Social Protection Engineering and Mutuals
- Programme 3: Healthcare, Welfare and Treatment Pathways

BENEFITS OF THE PROGRAM

- Maximum 30 students per year. - Over 50% of the teaching staff are professionals from the healthcare and welfare sectors.
