## Master's degree Urban Planning and Development Project Management for Urban Projects

École d'Urbanisme de Paris (EUP)

Master's degree M2

#### TO GET THERE

This course is for professionals with at least two years of experience in the fields of study who can prove that they have a qualification equivalent to four years of higher education. It is possible to enrol in the course using recognition of professional experience. A high level of knowledge in French language (C1 level) is requested.

#### ACQUIRED SKILLS

By the end of the course, participants will have acquired the following skills: creating an urban project that is coherent with the global development strategy of a territory and its forms of local public action; developing and making an urban project operational; producing knowledge and analysis in fields related to urban planning and making it available; developing the ability to analyse local policies and urban projects.

#### YOUR FUTURE CAREER

Graduates will be able to progress in their current positions, take on other roles and/or change careers. They will be able to work in development, town planning and urban project departments in local and state authorities, social housing agencies, real estate development, urban service operators, developers, etc.

#### BENEFITS OF THE PROGRAM

The course features activities jointly carried out with EUP teaching staff and urban project professionals, and combines various teaching formats (case studies, workshops, trips, conferences, scenarios, etc.). This range of activities, as well as the discussion generated between participants from various backgrounds, is one of the benefits of this course.
