BACHELOR ECONOMICS AND MANAGEMENT

Comptabilité, contrôle et audit

BACHELOR L3

ENTRY REQUIREMENTS

This training program is for second-year university level students with a good level of accounting and legal expertise, namely 120 ECTS credits in economics and management or management, other degrees, BTS CG (higher technician certificate in accounting and management), DUT GEA-CGF (university technology diploma in corporate and administrative management - accounting and financial management).

ACQUIRED SKILLS

The accounting, legal and finance courses are based on the DGC (Diploma in Accounting and Management) programs and enable students to make a general and financial diagnosis of a company, analyse the global management issues, identify the strategies likely to create value and measure their performance. It aims to develop critical thinking management skills so that students are able to enter the labour market more quickly. Students can also continue to acquire technical skills in corporate law, IT and English.

These theory courses are supplemented by a minimum 8-week work placement.

YOUR FUTURE CAREER

The training program prepares students for careers in accountancy, management control, auditing, finance and more generally any career connected with strong numerical abilities. The training program enables students to continue their training with a Master's degree in management, in particular the Master's in Accounting, Control and Auditing. It also helps them enter the labour market or take the competitive examinations for the civil service.

BENEFITS OF THE PROGRAM

Delivered to a small group of students (30 people maximum). This is a recognised training program due to the high standard of its accounting, legal and financial courses and the profile of its engaged and diligent students. This training program is one of the best ways to access the IAE Master's degrees.
